

Your Complete Distance Learning Solution

Carolina Distance Learning® has partnered with Odigia to provide a complete distance learning solution that includes digital learning and teaching tools and safe, effective hands-on lab kits for home use.

Carolina Distance Learning® develops and manufactures lab kits that are designed specifically for college-level distance education. They provide the same rigor, relevance, and results that traditional labs provide, giving your online students a successful lab experience wherever they are.

Odigia provides digital learning and teaching tools that enhance the way students access, modify, and engage with content; collaborate with each other during the course; track progress and understanding of content; and ultimately apply knowledge.

Complete course kits from Carolina Distance Learning® and Odigia:

- Create an immersive, engaging, and affordable distance learning experience
- Go beyond the textbook with digital learning and teaching tools
- Work seamlessly with your LMS or run independently
- Can be customized to fit your needs—Distance Learning Specialists are available to help you design a lab kit customized to match your desired learning outcomes
- Are delivered directly to your students at the time and price you need

Complete course kits are available for chemistry, biology, microbiology, and safety.
